Lotte Salling

Jimmy Jigsaw has begun.
Help me rhyme and have some fun.
I will wait for your replies,
let us start with Jimmy's...

...eyes

From a very central place
there's a thing on Jimmy's face,
that can smell a blooming rose,
yes, exactly, it's his...

...nose

Those two flaps on Jimmy's head
sometimes turn a little red,
catching everything he hears,
can you find them - Jimmy's...

...ears

Jimmy needs this crack to shout
or to cry or laugh out loud.
From his nose, a little south
you will find his smiling...

...mouth

This one holds a billion facts
and decides how Jimmy acts.
Every pleasure, every pain
is remembered by his...

...brain

On his head, right on the top,
it will grow and never stop,
waving softly in the air,
can you see his short, blond...

...hair

If he wants to climb or crawl,
give a hug or throw a ball
or pick pears at Granny's farm
he will have to use an...

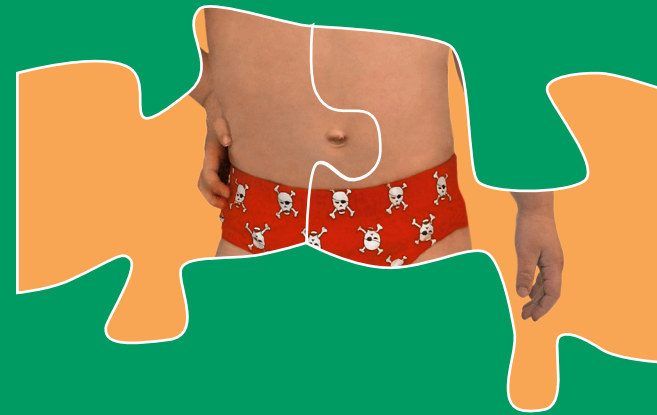

...arm

And when Jimmy wants to draw,
dig a hole or use a saw,
whether Jimmy sits or stands,
he will always use his...

...hands

Jimmy needs them every day
when he's running out to play.
They are long and rhyme with eggs!
Let's move on and find his...

...legs

Then when Jimmy rides his bike,
or decides to take a hike,
or if jumping down the street,
he will always use his...

...feet

Look inside him - this is fun!
There is Jimmy's skeleton.
What's it made of, - sticks and stones?
No, it's made of different...

...bones

This one pumps and pumps away
to keep Jimmy up all day.
Every single body part
will get blood from Jimmy's...

...heart

Jimmy's body will depend
on some help to make it bend:
Pulling, stretching, - what a puzzle,
everywhere you'll see a...

...muscle

But if Jimmy looked like that,
he would scare his mom and dad.
That's why everything within,
must be covered by his...

...skin

Jimmy does what he is told,
to avoid to catch a cold.
So, last thing before he goes:
Can you help him find his...

...clothes

Jimmy Jigsaw, now he's done,
and it's time to carry on.
You did well on each reply!
Now it's time to wave GOODBYE!
